How to Keep Cool by Night and by DRY.

In this torrid season, when "the grasshopper is a burden" and "much [mopping] is a weariness to the flesh," I beg to offer suggestions to a parboiled constituency of fellow sufferers which may contribute to their comfort. The unexampled heat of the day is bad enough, but when the night comes and there is no letup-no rest-no sleep-"hie labor, hie opus" -which may be freely translated, then the case is desperate. I have lived in hot climates -never, though, where I have suffered so much as here; and therefore I suggest as to

First-That there is made in India or Chica a matting, thickly woven but very elastic, for laying on mattre-ses under the sheets. They are non-conductors, they keep the mattress from heating and are deheiously cool to the person. Why does not some enterprising and sensible shopkeeper offer them for sale? They are mexpensive. I have bought them in Baltimore and Washington, but never saw one here except in the houses of old Iodia mer-

Second-Failing these, nothing is cooler to sleep on than a canvass ticking, stretched over a bed frame after the mattresses have been taken off and put away. A roller, with a ratchet at one end to tauten up, with the other end tucked across, is all that is necessary. Try an old-fashioned canvass bottom est bedstead, with a sheet only to cover it, and see if I am

Third-The Chinese have a night dress callloose flowing trousers fied about the waist with a drawing string; over that a loose suck of the same material, with flowing sleeves, buttoned up to the throat. The sensation of wearing this garment is simply delicious. I would not give up mine for any bribe. They are in the East worn alike by both sexes. A man in B s ton advertised them a few months ago; I don't know who he is, but I have many applications from friends to cell me his name.

As to comfort in the day time: First-As to the better off classes. Is there not somewhere among our tailors such a combination of common sense, taste and enterprise as will ensure our lib ration from the present thraldom of dress? Look at it. Count the folds that wrap a man's vital parts, chest and abdomen. A ganze undershirt, a linen shirt, double and treble tailor's trimmings around his waist (or his trousers,) a vest. (two thicknesses of material,) suspenders, a coat, (two or three thicknesses of material,) a hat, sweltering and [hot. Oh, Tophet! is there not sense enough to rid us of all this burden and make us comfortable? We ridicule the women with their pin backs and their pull backs and their papiers and their bouffrates. Are we men any more sensible?

Let some man in the tailoring line correct all this, and his children, and all the suffering sons of humanity, will "rise up and call him bless-Let us [men] wear our gauze underjackets and our drawers, and over them simply a flowing tunic and trousers of silk, delaine, or bunting-anything cool; no frippery or dead weight; let us put on the Oriental cork hat, either broad brimmed or helmet shaped-[I have one and the wind blows through the top like an æolian harp-and why, just here, in the name of common sense were they not provided for our police force instead of those black monstresities that suck up every straggling sunbeam?] -and we shall be cool, happy, of good conscience and build up some man's fortune.

Finally, is there not some liberal man who is willing to help the masses without loss to himself? How? Why by having the men who now labor on his building in the fierce sunshine and they are dropping off at the rate of twenty or thirty a day | do their work after 7 o'clock p. m. and before 7 o'clock a. m. Calcium lights are cheap. They are in every political procession, so cannot cost much. They are as good as daylight for masons, laborers, bricklayers, carpenters, painters, roofers-in short, to: all mechanics who exert great physical eftorts in the broiling sun. More work will be secon; lished, and a vast amount of human suffering will be avoided, to say nothing of the widows and orphans left by the sun stricken. For all these I plead. May I have your help? TAKE

For all Diseases of the Liver, Stomach and Spleen.

After Forty Years' trial it is still receiving the most unquali-fied testimonials of its virtues from persons of the highest cha-

racter and responsibility. It is eminently a Family Med-icine, and by being kept ready for immediate resort will save many an hour of suffering and

many a dollar in time and DOCTORS' BILLS.

Your Regulator is one of the best family medicines I ever used. I have not spent one dollar for my family for medicine in five years, only for your Regulator, and must say it does all it says it will. You can also recommend it in Colic for Stock, it having cured a fine mule of mine worth five hundred dollars.—[J.A Nelson, Magon Ch.

Macon, Ga.

The Liver, the largest organ in the body, is generally the seat of the disease, and if not regulated in time great suffering, wretchedness and DEATH will ensue.

If you feel DULL, DROWSY, DEBILITATED, have frequent Headache, MOUTH TASTES badly, poor Appetite and Tongue Coated, you are suffering from Torpid Liver or "Biliousness," and nothing will cure you so speedily and permanently.

Hon, Alexander if Stephens. "I occasionally use, when my condition requires it, Dr. Simmons' Liver Regulator, with good effect."—[Hon. Alex. H. Stephens.

Governor of Alabama. "Your Regulator has been in use in my family for some time, and I am persuaded it is a valuable addition to the medical science."—[Gov. J. Gill Shorter, Ala.

"I have used the Regulator in my family for the past seventeen years. I can safely recom-mend it to the world as the best medicine I have ever used for that class of diseases it purports to -{Ii. F. Thigpen.

Bultimore Episcopal Methodist. This medicine is acknowlededged to have no equal as a Liver Medicine, containing those Southern Boots and Herbs which an all-wise Providence has placed in countries where Liver Diseases most prevail.
